Vorwort.

Der zweite Band des „Internationalen homöopathischen Jahrbuches“ tritt in anständigerem Gewande vor das homöopathische Publikum als der erste. Der Besserung in seiner äusseren Erscheinung entsprechend ist auch der Inhalt, den wir bieten, ein wesentlich besserer, verglichen mit dem, was der erste Band bringen konnte. Alle die Schwierigkeiten, welche der Zusammenstellung eines genauen internationalen Adressbuches entgegenstehen, haben sich auch bei der Zusammenstellung des vorliegenden Textes wieder gezeigt. Die Lässigkeit der Correspondenten und die mangelhafte Genauigkeit der gegebenen Auskünfte machten es unmöglich, mehr als etwa zwei Drittel der wirklich vorhandenen homöopathischen Adressen zusammenzustellen.

Ich weiss sehr wohl, dass es eine Menge Käufer dieses Buches geben wird, welche nur die Fehler sehen werden und die gethane Arbeit unterschätzen; aber ich kann mit Bestimmtheit versichern, dass das hier gebotene Adressenmaterial das grösste und genaueste ist, was augenblicklich vorliegt. Für die späteren Bände sind noch umfassendere Vorbereitungen getroffen, aber für jezt muss sich der Leser mit dem begnügen, was unter den obwaltenden Umständen möglich war.

Die bibliographische Uebersicht, die ich im zweiten Theile dieses Bandes liefere, ist die letzte, welche ich herausgebe, da Dr. Cartier in Paris in seinem „Universal Homoeopathic Annual“ die bibliographische Uebersicht der homöopathischen Literatur von jetzt ab geben wird. Um aber alle Verwechs-

lungen mit diesem Werke unseres verdienstvollen Kollegen zu vermeiden, habe ich für mein Werk den deutschen Titel „Internationales homöopathisches Jahrbuch“ für alle Ausgaben beibehalten, obwohl der Text mit Hilfe der lateinischen Sprache zu einem international verständlichen gestaltet worden ist.

Ich bitte jeden Käufer meines Buches um seine Kritik und um seinen Rath, wie das vorliegende Werk — unsere erste internationale Veröffentlichung — so gestaltet werden könnte, dass es wirklich zu Ehren der Homöopathie und zur Förderung derselben diene.

Dr. **Alexander Villers.**

Preface.

The second volume of the 'International Homoeopathic Annual' makes its appearance before the homoeopathic public in a more becoming vestment than the first. To correspond with this amelioration in its exterior appearance, the contents are also essentially superior to those which the first volume could offer. All the difficulties which oppose the compilation of an exact international address-book have made themselves manifest in the compilation of the text in question. The laziness of the correspondents and the questionable accuracy of the information given made it impossible to collect more than two-thirds of the homoeopathic addresses extant.

I am well aware that there will be a large number of purchasers of this book, who will only notice the mistakes and undervalue the work accomplished; but I am able with confidence to assert that the address-material here presented is the most complete and exact that is at present to be obtained. For later volumes still more extensive preparations have been made, but, for the present, the reader can but be satisfied with what was possible of accomplishment under the prevailing circumstances.

The bibliographical summary which I supply in this volume is the last which I shall publish, as Dr. Cartier in Paris will

henceforth furnish the bibliographical review of homoeopathic literature in his 'Universal Homoeopathic Annual'. In order to avoid all confusion with this work of our praiseworthy colleague, I have retained the German title 'Internationales homöopathisches Jahrbuch' for all editions, although the text with the aid of the Latin language is internationally comprehensible.

I beg every purchaser of my book for his criticism and advice as to how the present work—our first international homoeopathic publication—can be so arranged that it may really serve as an honour to homoeopathy and towards the promotion thereof.

Dr. **Alexander Villers.**

Avant-propos.

Le second volume de l'Annuaire homéopathique international se présente sous un extérieur plus convenable à son public et offre outre cela un contenu essentiellement plus valable. Chaque collection d'adresses internationales produit une série de difficultés, dont j'ai senti tout le poids, en m'adressant aux adhérents de notre parti. L'indolence des correspondants et l'inexactitude des renseignements donnés, m'empêchent de publier plus de $^2/_3$ des adresses réellement existantes.

Je sais très-bien, qu'il y aura foule d'acquéreurs qui ne verront que les défauts de cette oeuvre et qui ne s'entendront pas à en apprécier le travail. Je puis affirmer que ce que nous offrous en adresses au public en est la collection la plus grande et la plus soignée. Pour les prochains volumes j'ai déjà commencé à préparer les matériaux sur un terrain plus étendu, mais momentanément je suis obligé de demander au lecteur, qu'il se contente de ce que je puis lui soumettre.

La bibliographie publiée dans la seconde partie de ce volume, cessera de paraître, Mr. le Dr. Cartier à Paris publiant à l'avenir une bibliographie homéopathique, intitulée: Universal homoeopathic annual. Pour éviter toute erreur je garde pour mon livre le titre allemand: „Internationales homöopathisches

Jahrbuch". Le livre restera international, malgré son titre allemand, à l'aide du latin, vraie langue cosmopolite du monde des lettrés.

Que chaque lecteur veuille me faire connaître son avis, pour que mon oeuvre — la première publication homéopathique internationale — serve à l'honneur et à le propagation de notre science.

Antisepticum „SPHINX“

von

Wilh. Mehlig & Co.

Wohlriechendes, desinficirendes Wasch- und Verstäubungswasser gegen Ansteckungs-Krankheiten als: Cholera, Influenza, Typhus, Kinderkrankheiten etc.

Dieses Antisepticum in Form einer blütenreichen Eau de Cologne, wegen seiner vollständigen Unschädlichkeit ganz besonders geeignet zur Verwendung im Haushalt, ist nach den Herren Prof. Rossbach in Breslau, Dr. Chamberland im Institut Pasteur in Paris und anderen als unbedingt keimtödtend anzusehen. Es verzehrt die in einem Raume befindliche unreine Luft sammt den darin befindlichen schlechten Geruchserregern und erzeugt darin in kürzester Zeit eine frische Lebensluft anstatt wie ähnliche Präparate einer schlechten Luft einen mehr oder weniger durchdringenden Geruch beizumischen.

Wir machen besonders die Herren Aerzte und Vorsteher von Heilanstalten auf unser Präparat aufmerksam unter Zusicherung besonderer Vergünstigungen und stellen gern Probeflaschen gratis zur Verfügung. Von unseren vielen Anerkennungsschreiben bringen wir folgende drei zum Abdruck:

Die Firma **Mehlig & Co.** hat mich ersucht, ihr zu bescheinigen, dass in ihrem antiseptischen Wasch- und Verstäubungswasser „Sphinx“ sich *keinerlei gesundheitsschädliche Bestandtheile* befinden. Nach Einsicht in die mir vorgelegten Fabrikationsrecepte bescheinige ich der Firma **Mehlig & Co.**, dass in ihrem antiseptischen Wasch- und Verstäubungswasser „Sphinx“ **nur** solche Antiseptica aufgenommen sind, welche *auch in der nothwendigen Concentration keinerlei* Gesundheitsschädigung verursachen können.

Nachdem uns Ihr „Antisepticum-Sphinx“ ausserordentlich gute Dienste geleistet hat während der Krankheit meines Mannes, erbitte ich abermalige Zusendung eines Kistchens enthaltend 6 Flaschen.

Ihr „Antisepticum-Sphinx“ ist erstaunlich wirkungsvoll, indem es überraschend schnell alle schlechten Gerüche entfernt, ohne — wie es bei anderen Parfüms zu sein pflegt — diese nur übertäubt, so z. B. hat es in kurzer Zeit den in dem Krankenzimmer verbreiteten schlechten Geruch genommen, als einmal hier Nachts der Theekessel auf der Nachtlampe Glanzruss angesetzt hatte.

Ganz entzückt von der Wirkung Ihres „Antisepticum-Sphinx“ beauftragt mich die Frau Gräfin von Strachwitz geb. Gräfin Blücher auf Schloss Peterwitz bei Frankenstein Ihnen dieses mitzutheilen, sowie dass die Räume, in denen Diphtheritis geherrscht und welche in Folge aller darauf vorgenommenen Desinfections-, Anstrich-, Maler- und Putz-Arbeiten, ungeachtet alles Lüftens und Einheizens einen unerträglichen Geruch hartnäckigst beibehielten, in kürzester Zeit durch Verstäuben Ihres „Antisepticum-Sphinx“ von allem schlechten Geruch befreit worden sind, und bittet die Frau Gräfin um Zusendung weiterer 12 Flaschen.

THE UNIVERSAL HOMOEOPATHIC ANNUAL

18, Rue Vignon, Paris (France)

Will appear at the end of the year 1894.

THE UNIVERSAL HOMOEOPATHIC ANNUAL

A YEARLY REPORT OF ALL THE HOMOEOPATHIC LITERATURE THROUGHOUT THE WORLD AND A REVIEW OF ALLOPATHIC WORKS INTERESTING HOMOEOPATHY

edited by

François CARTIER, M. D. Paris, France

Physician of l'Hôpital Saint-Jacques, of Paris
Laureate of the Faculty of Medecine of Paris
Ancien Interne of the Paris Hospitals
Member of the French homoeopathic Society

Honorary Member of the Hom. Med. Society of the County of Philadelphia
Corresponding Member of the Hom. Med. Society of the County of New-York
Member of the Society of Materia Medica of New-York
Post-Graduate of Hahnemann College of Philadelphia

WITH THE COLLABORATION OF THE FOLLOWING ASSOCIATE EDITORS:

Diseases of the digestive organ: **Dr Timothy Field Allen**, Professor of Materia medica and Therapeutics in the New-York Hom. Med. College and Hospital; formerly Dean of the New-York Hom. Med. College; Author of the Encyclopedia and the Handbook of Mat. Med. and Therapeutics.

Diseases of the circulatory system: **Dr Pierre Jousset**, Physician of l'Hôpital Saint-Jacques, of Paris; Professor of Pathology and medical clinic; Editor of *l'Art Médical* and of numerous homoeopathic publications; Ancien Interne laureate of the Paris Hospitals (Gold Medal).

Ophtalmology: **Dr A. B. Norton**, Physician and surgeon of the New-York ophtalmic hospital and College; Author of the ophtalmic diseases and therapeutics.

Diseases of the lungs: **Dr Léon Simon**, Physician of the Hahnemann hospital of Paris; formerly President of the French homoeopathic Society.

Mental and nervous diseases: **Dr Selden Talcott**, Medical Superintendent of the Middletown State homoeopathic Hospital; Professor of mental diseases in the New-York Hom. Med. College.

Children's diseases: **Dr Alphonse Teste**, Author of the Children's diseases, and of la systématisation pratique de la matière médicale homéopathique, etc., etc.

Otology: **Dr Henry C. Houghton**, Senior Aural surgeon to the New-York ophtalmic hospital, Professor of Clinical otology in the New-York Hom. College; Author of the lectures on Clinical Otology.

Surgery: **D. W. B. Van Lennep (?)** of Philadelphia.

Genito-urinary diseases: **Dr. Alexander Villers, Dresden.**

Skin diseases: **Dr. C. Burford, London.**

(Each year, the list of the associate editors will change)

assisted by

Physicians specially attending to the translating department of German, French, Spanish, Italian, Russian, etc.

The Universal homoeopathic Annual will form a large volume in quarto of about 500 pages, and will be divided into two parts:

I. **Materia Medica:** This part will contain the description of the new homoeopathic remedies, and the newly discovered properties or the confirmations of symptoms already known of old remedies quoted in all the journals of the current year. The list of the medicaments will follow in alphabetical order.

All poison or substance studied *physiologically* by allopaths will also enter into this first part.

II. **Therapeutics:** As in all works on therapeutics, the disease must be studied before the remedy, hence, there will be for each malady a summary of the works of the year on the anatomy, physiology, pathological anatomy of the organ, and on the etiology, symptomatology, prognosis and diagnosis of each disease.

An annual being a review as complete as possible of all that has been published in a year, the natural consequence of such a publication is that many errors are set forth: it is the defective point of all annuals. So, we think that our homoeopathic colleagues who would subscribe to this Annual would be glad to find as an introduction to each chapter of Pathology the valuable opinion of Professors or prominent Physicians on the works of the current year. The criticism is also the part that the associate editors of the Universal homoeopathic Annual have kindly accepted.

With that purpose, the Universal homoeopathic Annual will choose every year its associate Editors among the greatest authorities of our homoeopathic school in both continents.

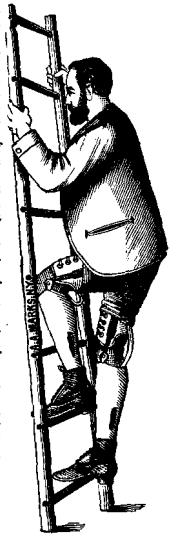
ARTIFICIAL LEGS AND ARMS,
WITH RUBBER FEET AND HANDS
(MARKS' PATENT.)



The engraving is from an instantaneous photograph of a man ascending a ladder. He has two artificial legs substituting his natural ones, which were crushed by a railroad accident and subsequently amputated. With his rubber feet he is able to ascend or descend a ladder, balance himself on the rungs, and have his hands at liberty. He can earn a good day's wages at the bench. He can walk and mingle with persons without betraying his loss; in fact, he is restored to his former self for all practical purposes.

With the old methods of complicated anklejoints an undertaking of this kind would be at his peril, but with the rubber feet he can venture into all sorts of operations with safety.

By a copyrigt formula furnished by us on request, applicants can supply us with all the data necessary to secure fit and satisfactory results while they remain at home. One half the legs and arms furnished by us are made from measurements and profiles without our seeing the wearers. Fit always guaranteed.

We will be pleased to send, free of charge, to anyone interested, a book on the subject of artificial limbs, printed in any of the following languages: English, French, Spanish or German.
